PROFESSIONAL SUMMARY

Senior Business Analyst with 12+ years of experience in enterprise Healthcare SaaS, Agile delivery, and process automation. Leads a 13-member offshore delivery team supporting CMS-regulated healthcare policy releases for enterprise clients including Molina, Cigna, Blue Cross of Idaho, CareFirst, and Optum. Skilled in requirements gathering, BRD/SOW authoring, UAT management, and end-to-end Jira sprint ownership. Builds custom automation tools using Google Apps Script, SQL, and JavaScript that replace manual reporting with live dashboards, improving reporting turnaround by 30% and data accuracy by 25%.

SKILLS

- Business Analysis: Requirements Gathering, BRD/SOW Authoring, UAT Management, Process Mapping, Defect & Release Management
- Agile Delivery: Scrum Ceremonies, Sprint Planning, Backlog Refinement, Story Estimation, Release Planning, Jira Administration
- Automation & Development: Google Apps Script, JavaScript, HTML, CSS, SQL, Python, XML Business Rules, REST APIs
- Data & Reporting: Power BI, Tableau, Looker Studio, KPI Dashboards, Executive Reporting (QBR, MBR)
- Platforms & Tools: Jira, Salesforce, SAP, Smartsheet, Google Workspace, Microsoft 365, Beebole
- Healthcare & Compliance: CMS Release Management, Document Automation (DAT, Content Now), PDF and 508 Accessibility Compliance
- Leadership: Offshore Team Management, Cross-Functional Stakeholder Coordination, Client Success

EXPERIENCE

Senior Business Analyst | RR Donnelley (RRD) | Chennai, India

April 2025 - Present

- Lead a 13-member offshore delivery team, coordinating with 25+ onshore stakeholders across Product, DevOps, Configuration, Accessibility, and QA functions.
- Manage end-to-end delivery of healthcare document automation projects for enterprise clients including Molina, Cigna, Blue Cross of Idaho, CareFirst, Optum (TSG), and Medicare plans, aligned with CMS regulatory release deadlines.
- Own the Jira sprint lifecycle from requirement intake through development, QA, deployment, and production release; run Daily Stand ups, Sprint Planning, Reviews, and Retrospectives.
- Convert client business requests into actionable technical tasks and prioritize requirements across competing stakeholder demands.
- Developed 3+ Google Apps Script-based internal web applications (Sheets, HTML, JS) for productivity, utilization, attendance, and sprint reporting dashboards.
- Designed a centralized Google Sites knowledge portal used as the operational hub for distributed delivery teams.
- Configured XML-based business rules to automate generation of multiple healthcare policy document versions, improving accessibility compliance across all outputs.
- Streamlined client reporting processes, improving reporting turnaround by 30%.

Business Analyst | RR Donnelley (RRD) | Chennai, India

August 2022 - April 2025

- Managed client contracts, renewals, and service desk operations for a multi-client portfolio using Salesforce and Smartsheet.
- Automated reports and dashboards, improving reporting accuracy and decision-making speed by 25%.
- Coordinated end-to-end production management (order generation, scheduling, tracking), maintaining strict SLA compliance.
- Partnered with C-Level and SVP executives on pricing updates, financial forecasting, and quarterly business reviews.

- Earned the Stellar Award for Automation (2024) for optimizing manual workflows through automation scripts and dashboards.

Senior Research Analyst | Merit Data & Technology | Chennai, India

April 2019 - August 2022

- Managed research data projects covering revenue planning, data verification, and target lead generation.
- Conducted market and sector-based analysis for business development teams using Salesforce and Oracle tools.
- Delivered actionable insights on target markets, industries, and geographic regions that directly supported client acquisition.
- Cleaned and consolidated 5+ years of historical data records through rigorous cross-verification workflows, maintaining zero operational downtime.

Senior Associate, Technical Support | Sutherland Global Services | Chennai, India

July 2015 - January 2018

- Delivered technical support to Bell Canada SMB and enterprise clients, resolving complex connectivity and issues.
- Trained and onboarded new hires and managed high-level escalations to maintain consistent service delivery quality.

Technical Support Associate | Fixnow Support Pvt. Ltd. | Chennai, India

December 2012 - June 2015

- Provided remote technical support for Windows OS, Office 365, and Google Workspace environments.
- Recorded and analyzed technical complaints to identify root causes and reduce recurring issues.

PROJECTS

SDG Insight Hub: Enterprise Workforce Platform

Architected a serverless workforce management platform on Google Apps Script and Google Sheets to solve night-shift boundary rollovers, real-time manager visibility, and concurrent data-entry conflicts. Implemented queue-based record locking and SheetJS-based reporting, eliminating record overwrites during peak shift-end traffic and improving productivity visibility by 40%.

Healthcare Document Automation Platform (DAT & Content Now)

Managed end-to-end healthcare document automation for CMS-driven policy releases, including XML business-rule configuration and 508 accessibility compliance across production outputs.

Jira Delivery & Sprint Analytics Dashboard

Integrated Google Sheets with the Jira REST API to automate live dashboards tracking sprint progress, backlog health, and release readiness for leadership.

Beebole Resource Utilization Automation

Built an automated integration between operational tracking systems and Beebole timesheets, improving client billing accuracy and resource capacity planning.

EDUCATION

Diploma in Civil Engineering, Krishnasamy Polytechnic College, Cuddalore, India — [2010]

AWARDS

- Stellar Award for Automation (2024), RR Donnelley, for optimizing manual workflows through automation scripts and dashboards.
- Built internal web apps (Google Apps Script, HTML, JS) that improved team productivity visibility by 40%.
- Designed a KPI-driven client analytics dashboard that improved stakeholder engagement by 15%.
